

EMTIAZ AHMED

Backend Developer | Node.js | TypeScript | Express.js | PostgreSQL | Docker

Natore, Bangladesh | +880 1704 829 369 | emtiaz2060@gmail.com

LinkedIn | GitHub | LeetCode | Codeforces

Professional Summary

Backend-focused Software Developer experienced in building RESTful APIs, authentication systems, RBAC, real-time features, payment workflows, and database-backed applications using Node.js, Express.js, TypeScript, PostgreSQL, MongoDB, Prisma ORM, Redis, Docker, and Next.js. Solved 500+ DSA problems across competitive programming platforms.

Technical Skills

Languages: TypeScript, JavaScript, Python, SQL

Backend: Node.js, Express.js, REST APIs, JWT, Refresh Tokens, RBAC, API Design, Error Handling, Rate Limiting

Databases: PostgreSQL, MongoDB, MySQL, Prisma ORM, Database Modeling, Redis

Frontend: Next.js, React.js, Redux Toolkit, Tailwind CSS, Shadcn UI

Tools: Docker, GitHub Actions CI/CD, Git, Postman, Stripe, Socket.io, NextAuth.js, Zod, Google Gemini API

Projects

PurrfectHub | Cat Adoption Web Application 2026

Server | Client | Live

- Developed RESTful APIs with Node.js, Express.js, and TypeScript, including JWT auth, refresh tokens, email verification, and RBAC for User, Host, and Admin roles.
- Designed database schema, Prisma relations, secure auth middleware, Zod validation, centralized error handling, and rate-limited protected routes.
- Integrated Stripe donations, real-time analytics, Dockerized backend workflows, and a Gemini chatbot with 90%+ intent recognition.

EventMate | Event Management Platform 2026

Server | Client | Live

- Built backend workflows for event registration, waitlist management, payment processing, pagination, filtering, and role-specific dashboards.
- Automated waitlist promotion with email notifications and Socket.io real-time updates, eliminating manual host intervention.
- Implemented API error handling, Redis-ready backend patterns, Stripe payments, and analytics for API-driven workflows serving 1,500+ users.

TradeNest | E-Commerce 2026

Server | Client | Live

- Built a NestJS backend with PostgreSQL, Prisma ORM, Better Auth, REST APIs, role-based access, and modular service architecture.
- Dockerized the API with Docker Compose for PostgreSQL, Redis, and NestJS services, including health checks and environment-based configuration.
- Implemented Swagger/OpenAPI documentation, global validation pipes, centralized exception handling, response interceptors, Helmet security, and rate limiting with @nestjs/throttler.

Education

BRAC University Sep 2022 – Present

B.Sc. in Computer Science Dhaka, Bangladesh

Problem Solving

LeetCode: 500+ solved | Codeforces: Max Rating 1380, 340+ problems | CodeChef: 2 Star, 150+ problems

Leadership & Activities

Senior Executive, BRAC University Computer Club | Senior Executive, BRAC University Chess Club

Certifications

Programming Hero, Full Stack Web Development Level 1 & 2 (2025) | HackerRank, SQL Intermediate (2025)
